

We are development partner & system supplier
for mechatronic systems, devices and modules and are looking for
full-time with immediate effect:

Sales Engineers (m/f/d)

Your tasks:

- Acquisition of new projects in the D-A-CH region as well as in the international environment
- New customer acquisition with challenging development projects incl. series products
- Development of new industries, markets and products
- Development of solutions for complex, technical tasks
- Participation in the development and implementation of the sales strategy

Your profile:

- Completed engineering degree (TU, FH, BA) in the field of mechatronics, electrical engineering, mechanical engineering or a comparable qualification
- Well-founded, several years of experience in the successful acquisition of new customers in the area of products requiring explanation
- Creativity, initiative and entrepreneurial thinking
- Goal-oriented and structured work style
- Contact strength

What you can expect:

- Attractive salary package incl. company vehicle
- Flexible working time arrangements
- Wide scope for design
- Careful training and support by an experienced and young team
- Good working atmosphere
