

Certificate

**in accordance with EN 17460:2022-07 to demonstrate the suitability
of the user-company for manufacturing adhesive bonds
on rail vehicles and parts of rail vehicles**

The Company **Deutsche Mechatronics GmbH**
with production site in **Friedrich-Wilhelm-Straße 14**
D-53894 Mechernich

has been certified in accordance with EN 17460:2022-07 for the following area of validity:

Product design of adhesive bonded parts Class A3
Process design of adhesive bonded parts Class A3
Manufacture of adhesive bonded parts Class A3

Scope of validity

Main function of the bonded joints: L
Pre-treatment methods: -
Production methods: LA
Test methods: -
Degree of mechanization: M

Adhesive Bonding Coordinator (rABC): Mr. Bernd Walber, born 06.11.1965 / EAE

Adhesive Bonding Coordinator (ABC) w.n.e.r.**: Mr. Bernd Esser, born 28.09.1960 / EAS

Mr. Arkadius Zapora, born 06.10.1964.

Remarks: This document is only valid in combination with the
actual registration of the certificate in the Online-
Register. For further remarks see the back page.

Certificate No.: TC-K/17460/A3/F3-1/2023/438

Validity: 2023 October 18th – 2026 October 26th

Issued on: 2023 October 18th

Changed on: 2023 November 02th

Thomas Richter, Head of the Certification Body

Remarks

Classified bonded parts only have to be produced in the proven area: Hall 50

General Regulations

The new application has to be submitted to the certification body at least two months before the certificate expires if the suitability of the user-company shall be certificated furthermore.

Changes within the time of validity of the certificate

If the address of the user-company or company site, the class of the certificate, supervisors or the area of validity change, the certification body must be informed immediately. The certification body decides about the necessity of an inspection on the site and change of the certificate.

The certification body must be informed if there are changes or additions to main processes or to any of the areas for which the certificate is valid under „Main function“, „Pre-treatment methods“, „Production methods“, „Test methods“ and „Degree of mechanisation“. The certification body decides whether to check the changes on-site and whether it is necessary to change the certificate.

Withdrawal of the certification

The certification body can withdraw certification if:

- 1) There is a serious shortcoming in the execution of the adhesive bonding work as required by this standard;
- 2) There is a serious shortcoming in the supervision of the adhesive bonding work as required by this standard;
- 3) There is no authorised supervision of the adhesive bonding work;
- 4) The employees carrying out the adhesive bonding work at the practical level do not have valid qualification certificates as required by this standard;
- 5) Other conditions required by this standard are no longer fulfilled;
- 6) The period of validity has expired;
- 7) The user-company does not have certification.

The user company must confirm attention of the withdrawal in written form towards the certification body.
